

## Product Introduction

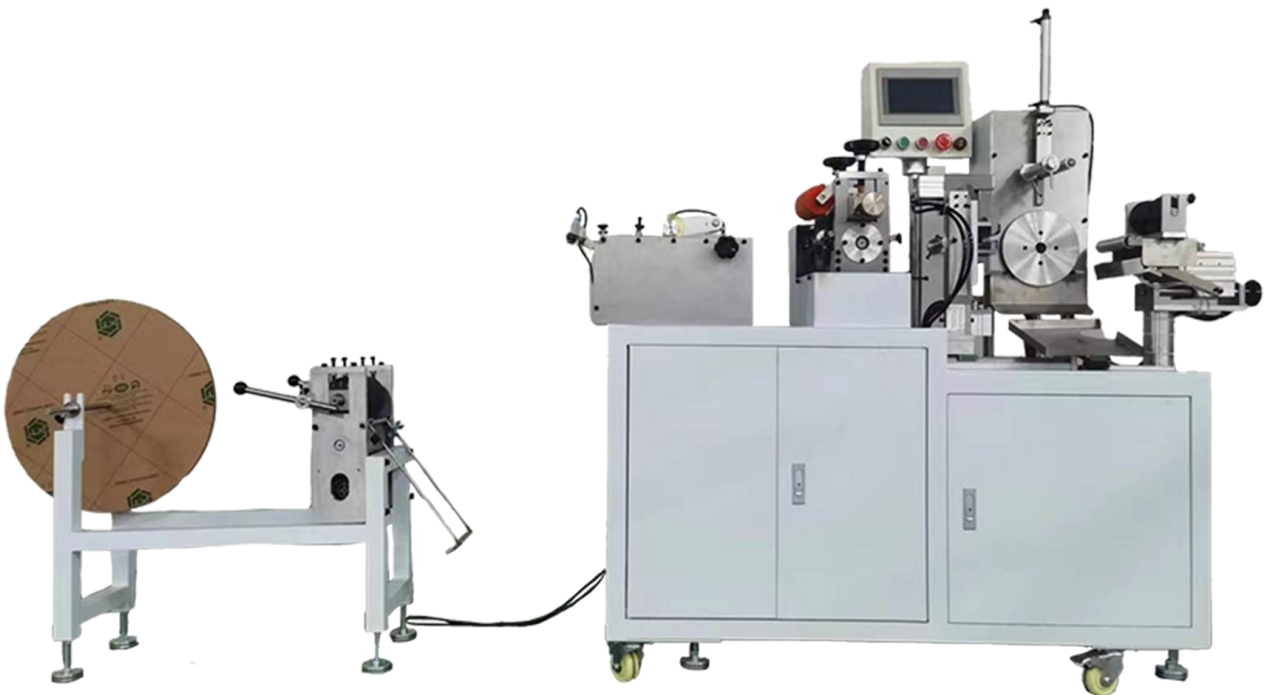

---

# Velcro roll slitting coiling cutting machine ES-128

### 【Product Description】

The velcro automatic cutting and coiling machine ES-128 performs vertical slitting velcros , precise cutting of Velcro into custom lengths, and coiling into rolls and automatical taping the ends all within a single machine, streamlining the production line and reducing manual labor.

This velcro automatic cutting and winding machine is capable of handling materials with a thickness ranging from 1 to 3mm and accommodating cutting lengths from 1 to 50 meters, the ES-128 offers flexibility to meet diverse manufacturing requirements

## Product Introduction

---

The Maximum velcro material diameter before processing is 800mm and maximum velcro material diameter after coiling is 130mm , the maximum processing material width is 120mm ,the machine can slit big width velcro into small width velcro before coling into rolls , the mininum slitting width is 8mm .

The velcro roll slitting coiling cutting machine is equipped with a user-friendly PLC touch screen interface, the operating system ensures easy control and monitoring of the production process .

With an impressive output ranging from 2 to 8 rolls per minute, this machine maximizes productivity while maintaining superior quality standards, enabling velcro manufacturers to meet demanding production targets with ease.

### **【Technical Data】**

## Product Introduction

---

Product name : Velcro roll slitting coiling cutting machine

Model No.:ES-128

Function : Vertical slitting +cutting velcro into length +coiling into rolls in one machine

Voltage: 220V 50/60HZ

Machine power: 2KW

Working pressure: 0.7MPA

Operating system: PLC Touch screen

Cutting length: 1-50 meters

Processing material thickness:1-3mm

Maximum material diameter after coiling : 130mm

Maximum material diameter before processing: 800mm

Maximum processing material width: 120mm

Roll core diameter :25mm

Minimum slitting width: 8mm

Output : 2-8rolls/min

Net weight: 260KG

Machine dimension: 2850mmX800mmX1500mm

### 【Product Advantage】

**1, Vertical slitting +cutting velcro into length +coiling into rolls in one machine , it also automatically**

Add:Room 103, Building 8th, Dacheng Industrial Zone, Buji Street, Longgang District, Shenzhen,China  
Mobile phone: +86-188 1188 0172

## Product Introduction

---

---

tape the ends for adhesive backed velcros

**2, Velcro Roll to roll , from Big rolls to process in small rolls**

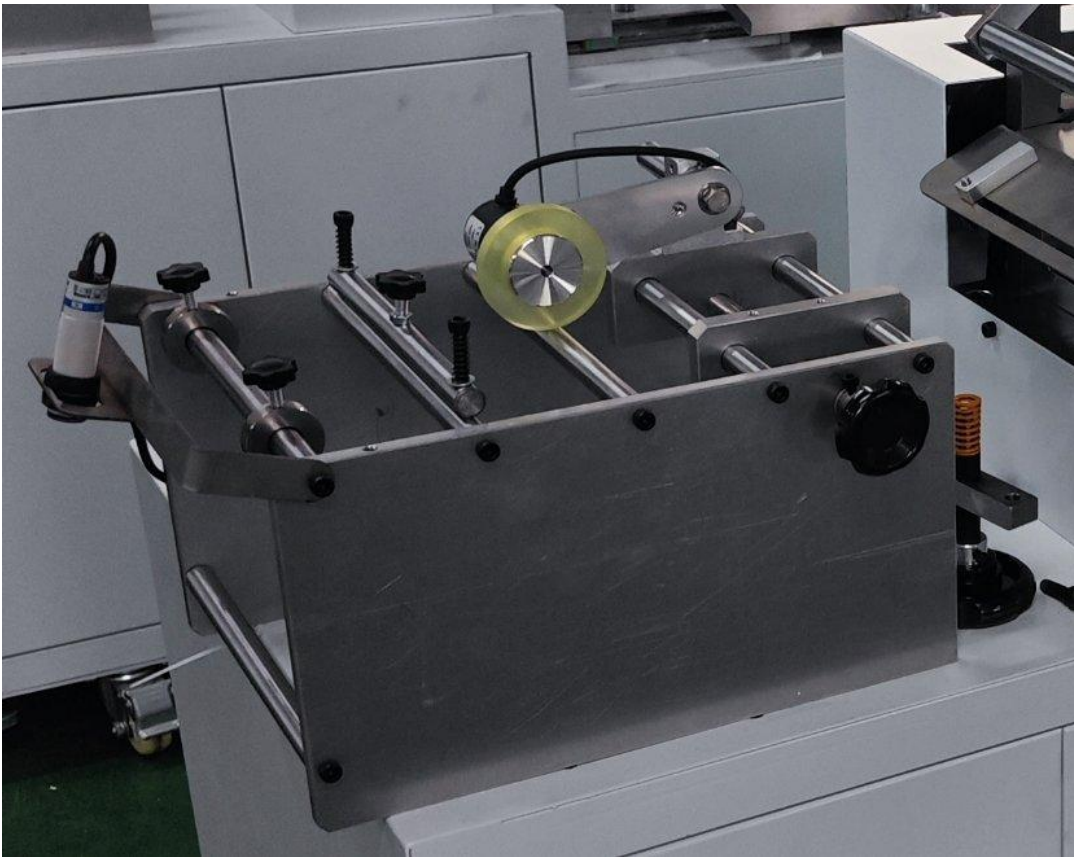

**3, High productivity with slitting function , multi velcro rolls to be made at the same time ,labour saving**

### **【Product Details】**

**1,Count meters** , the velcro cutting and coiling machine had been equipped with count meter device , it can record how

many meters of velcro had been processed

## Product Introduction

**2,Touch screen control** the velcro automatic cutting and coiling machine applies with touch screen

control which is easy to operate , customer can set cutting length , working speed ,etc .

## Product Introduction

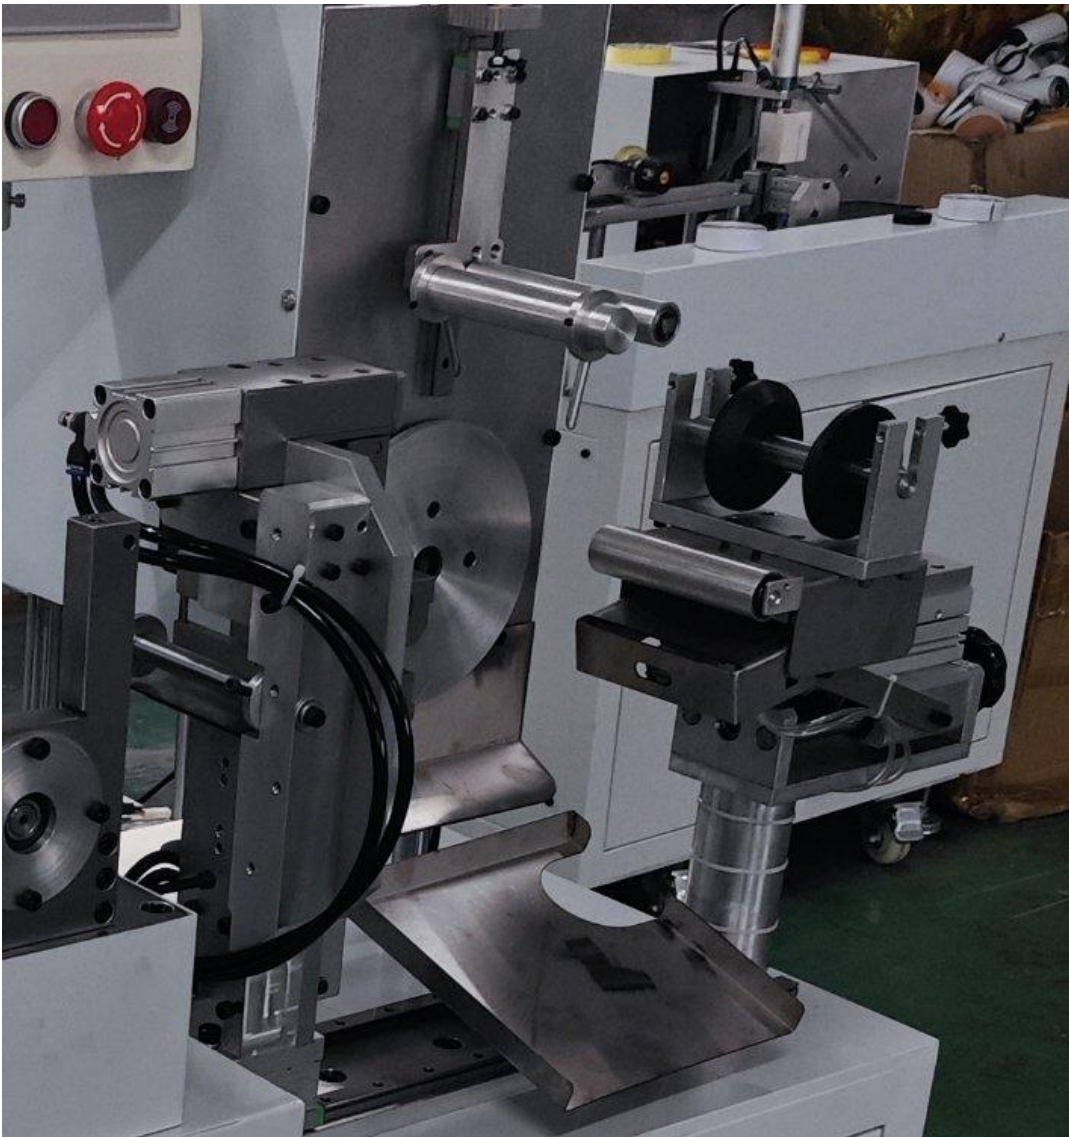

---

**3, Coiling velcro into rolls and taping the ends** ,the coiling device can coil velcros into different size rolls

and the taping parts will automatically tape the ends of velcro rolls .

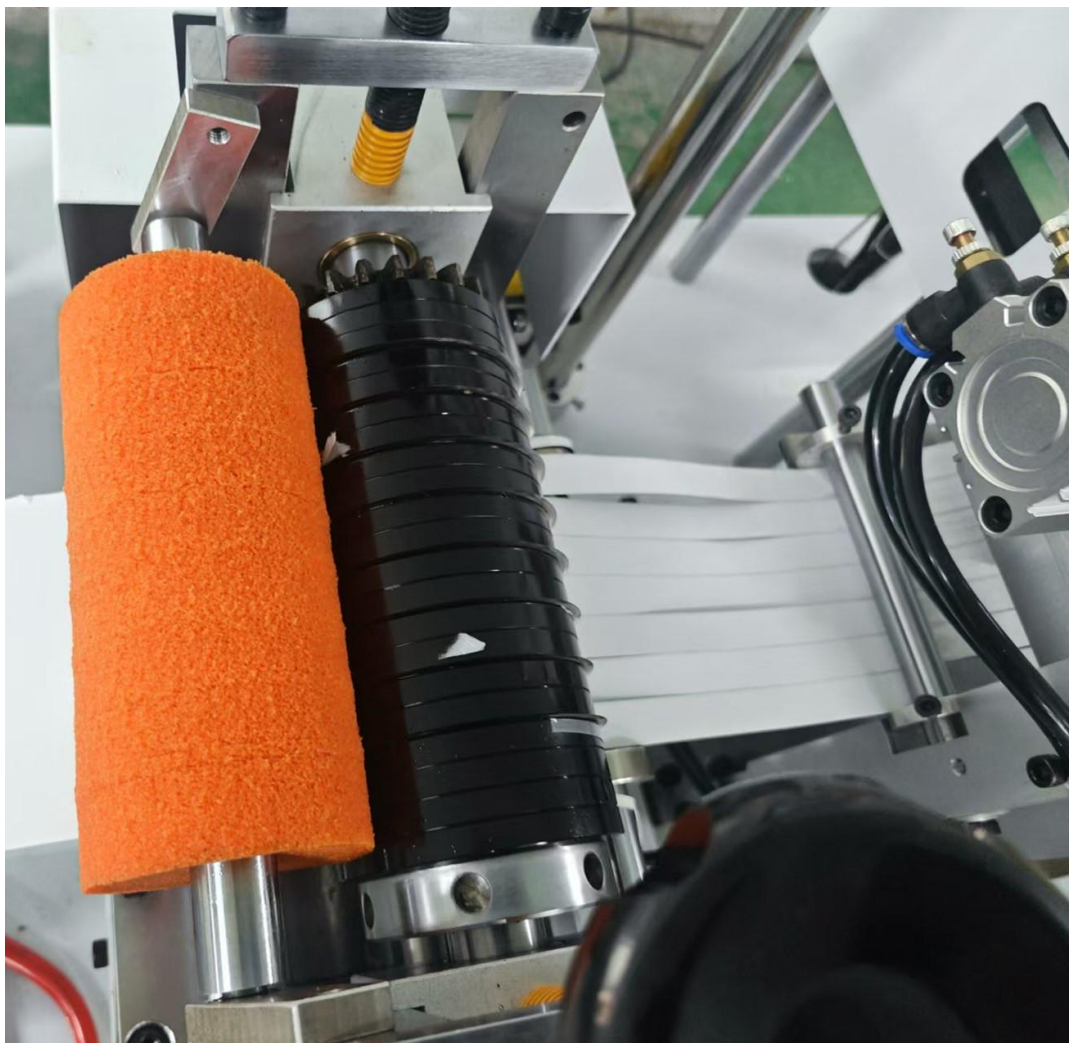

## Product Introduction

**4, Slitting and cutting velcro to length** , the velcro automatic cutting and winding machine can slit velcro into

small width ,the minimum slitting width is 8mm ,after slitting and coiling , the machine velcro to fixed cutting length .

### **【Warranty】**

As a velcro roll slitting coiling cutting machine supplier , all the spare parts of the machine will have one year of free maintainance

by changing the spare parts for free and free shipping of spare parts to overseas clients starting from the issuing date of commercial invoice

after on line diagnosis .

### **【Packing】**

1Set/Wooden case ,foam paddings will be put inside wooden case for safe overseas shipping
